

CHART Phase 2 RFP General Information Session

Health Policy Commission: CHART Program
June 25, 2014

Questions by webinar

- If joining by webinar, please type questions into the question box and HPC staff will address them

Agenda

- CHART Phase 2 RFP General Information
- CHART Background
- Phase 2 Eligibility
- Phase 2 Framework & Examples
- Phase 2 Core Activities
- Phase 2 RFP - Materials & Submission
- Phase 2 RFP - Review & Selection
- Frequently Asked Questions
- Q&A

Contact with the Health Policy Commission

- The HPC may provide clarification about information contained within the RFP and answer written questions about process, goals, and expectations sent to HPC-CHART@state.ma.us
- The HPC cannot provide initiative-specific guidance during this competitive application process
- Eligible applicants cannot call or directly email any HPC staff member or Commissioner regarding CHART Phase 2 during this competitive application process
- Phase 1 calls and dialogue will continue as normal

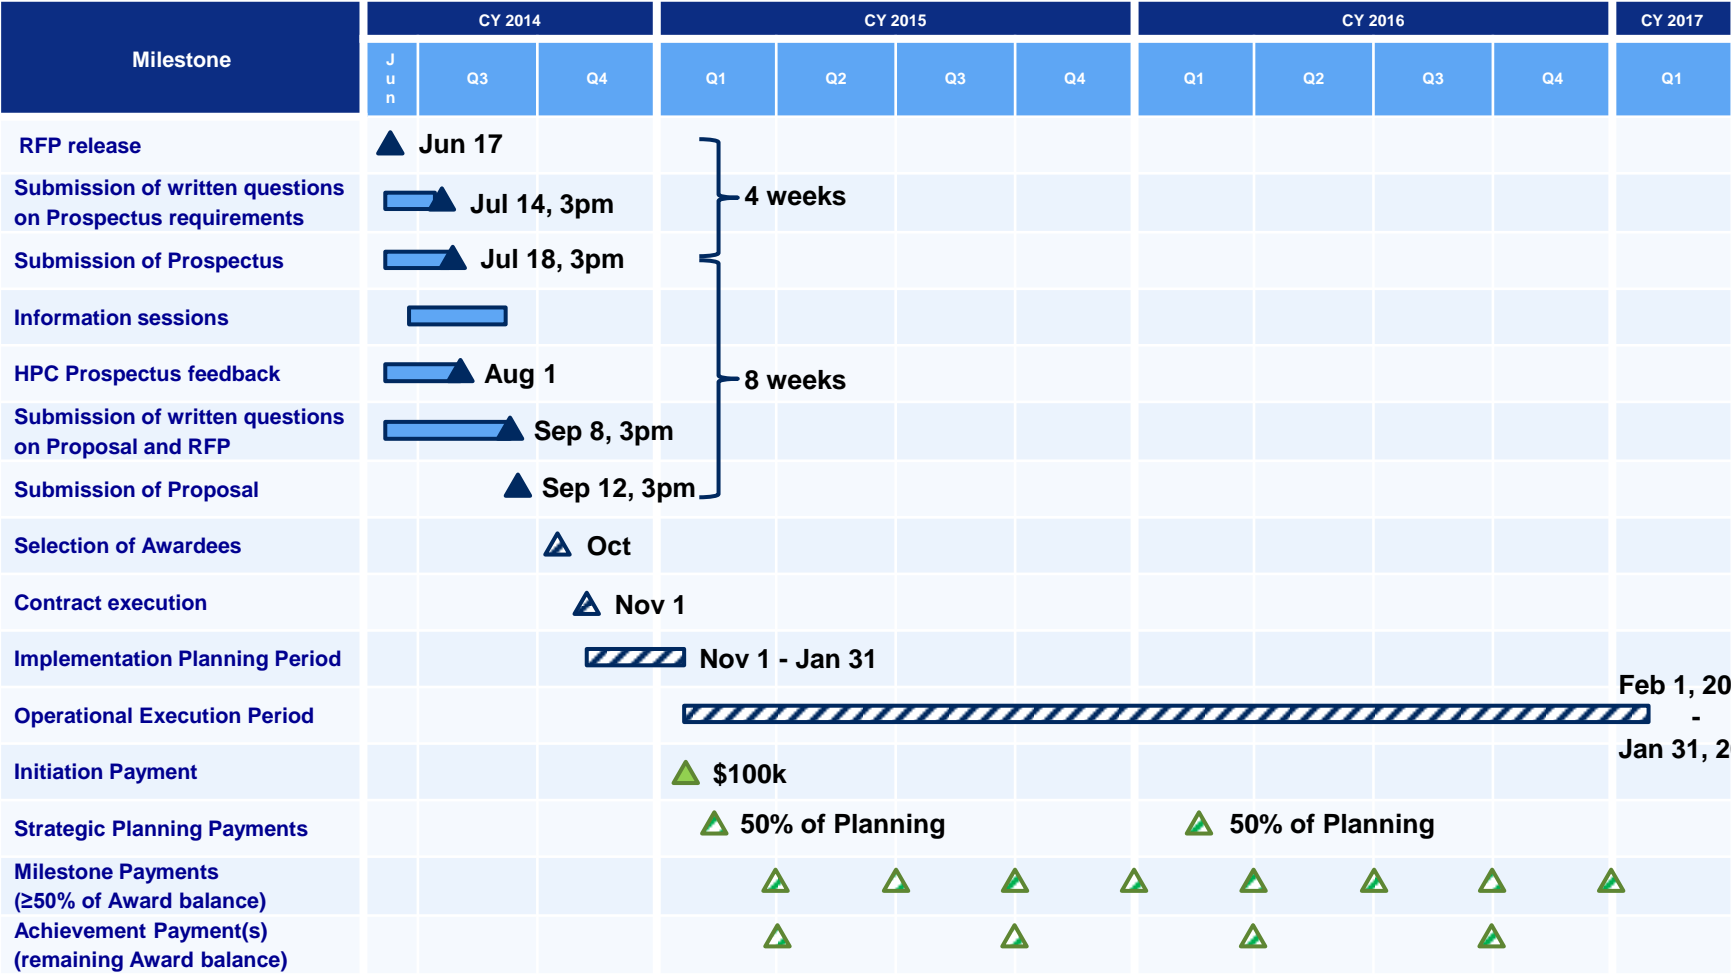

“Qualified Acute Hospitals (CHART Hospitals), or any agent(s) working on their behalf, are prohibited from communicating directly with any HPC Commissioners or Staff regarding this RFP except as specified in **Section VI.C...** No other individual Commonwealth employee or representative is authorized to provide any information or respond to any question or inquiry concerning this RFP. Any unauthorized communication or contact may result in immediate ineligibility of a CHART Hospital at the sole discretion of the HPC.”

HPC-CHART-002 RFP, Section V.B, “**Contact of Qualified Acute Hospitals with Health Policy Commission**”

Information Session key takeaways

- The following presentation is a summary describing and clarifying the CHART Phase 2 RFP
- CHART Hospitals must propose work targeting one or more Primary Aims:
 - Maximize appropriate hospital use
 - Enhance behavioral health care
 - Improve hospital-wide (or system-wide) processes to reduce waste and improve quality and safety
- CHART Hospitals may submit one Joint-Hospital Proposal and/or one Hospital-Specific Proposal
- The HPC is offering a series of optional, topic-specific webinars which may assist in idea generation and proposal development
- The HPC will accept written questions sent to HPC-CHART@state.ma.us about the Prospectus up to [Monday, July 14 at 3:00PM] and about the Proposal up to [Monday, September 8, at 3:00PM.] Responses will be posted to www.mass.gov/hpc/chart **in a timely manner**

CHART Phase 2 timeline

Information Sessions

	Session Topic	Presenter
June 25 9:30 – 11:00AM	Phase 2 RFP: General Information	Health Policy Commission
June 30 2:00 – 3:00PM	General Principles and Approaches to Large Scale Improvement: How to Begin	Cynosure Health
July 9 10:00-11:00AM	Substance Use Disorder Treatment: Innovative Ideas for Hospitals	Bailit Health Purchasing (On behalf of DPH BSAS)
July 10 1:30 – 3:00PM	Phase 2 RFP: General Information	Health Policy Commission
July 24 2:00 – 3:00PM	Advancing Large Scale Improvement: What to Do and When to Do It	Cynosure Health
July 31 3:00 – 4:00PM	Mass Hlway: Use Cases, Workflow Implications, Best Practices	Massachusetts e-Health Institute
August 5 1:00 – 2:00PM	How to Complete the CHART Phase 2 Impact Estimator Template	Collaborative Healthcare Strategies
August 19 12:00 – 1:00PM	Mass Hlway: Technical Requirements and Implementation Approaches	EOHHS Information Technology Group
August 20 2:00 – 3:00PM	Supporting Large Scale Improvement: Measuring Your Progress	Cynosure Health

Additional details about Information Sessions and webinars, including registration links and all summary materials, will be posted at <http://www.mass.gov/hpc/CHART>.

CHART Background

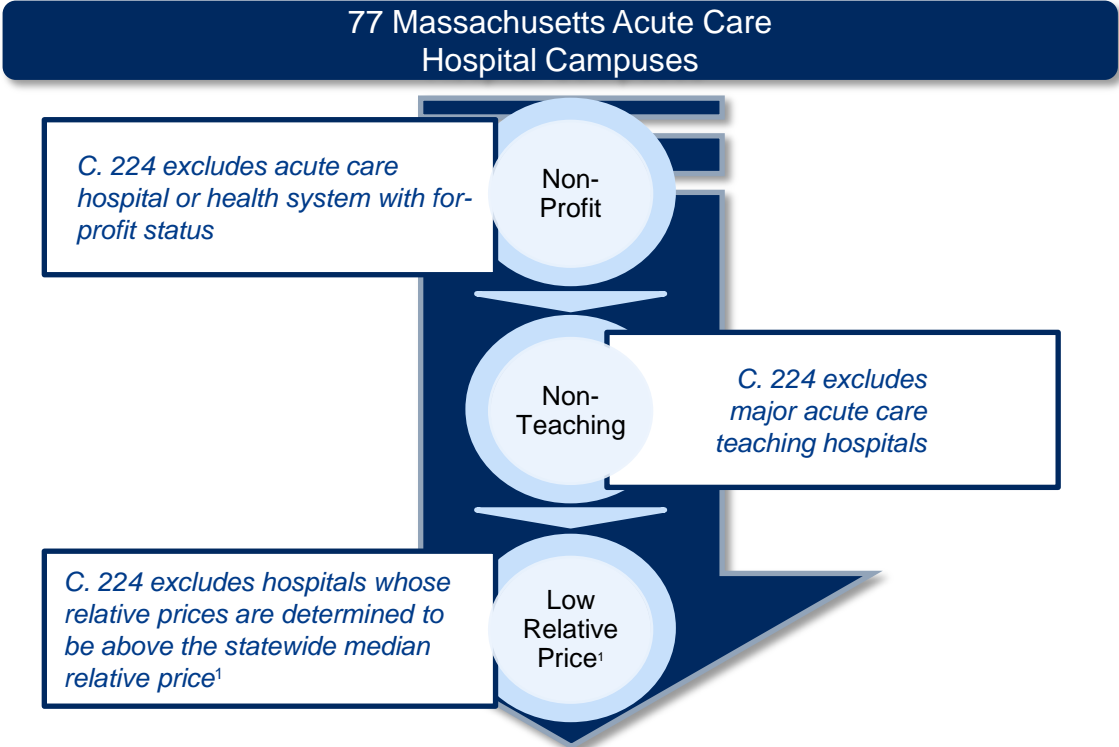

Community Hospital Acceleration, Revitalization, and Transformation
Charting a course for the right care at the right time in the right place

Key design elements for CHART Phase 2

1	Size of total opportunity	<ul style="list-style-type: none">• \$60 million total opportunity• Tiered, multi-year opportunities with awards stratified across hospitals
2	Structure & caps	<ul style="list-style-type: none">• Hospital award cap of \$6M/2 years tied to factors such as financial / patient impact, hospital financial status, and community need
3	Specificity of initiative focus	<ul style="list-style-type: none">• 3 outcome-oriented project domains; behavioral health emphasized• Required technology innovation and targeted strategic planning efforts
4	Funding model(s)	<ul style="list-style-type: none">• Initiation payment (\$100K); ongoing base payments for milestones (at least 50%); bonus payments for achievement (up to 50%); required system contribution where pertinent
5	Ensuring accountability	<ul style="list-style-type: none">• Standardized metrics and streamlined reporting framework; strong continuation of leadership/management/culture development focus
6	Leveraging partnerships	<ul style="list-style-type: none">• Appropriate Community Partnerships required (e.g., SNFs, CBOs, providers, etc.); Joint Hospital Proposals strongly encouraged
7	Requisite Activities	<ul style="list-style-type: none">• All awardees must engage in a series of participation requirements (joining Mass Hlway, participating in TA, evaluation, etc.)

CHART Phase 2 Hospital Eligibility as determined by Chapter 224 of the Acts of 2012

Anna Jaques Hospital	Hallmark Health - Melrose-Wakefield Hospital	Noble Hospital
Athol Memorial Hospital	Harrington Memorial Hospital	Shriners Hospital - Boston
Baystate Franklin Medical Center	Heywood Hospital	Signature Healthcare Brockton Hospital
Baystate Mary Lane Hospital	Holyoke Medical Center	Southcoast - Charlton Memorial Hospital
BID - Milton	Lahey Health - Addison Gilbert Hospital	Southcoast - St. Luke's Hospital
BID - Needham	Lahey Health - Beverly Hospital	Southcoast - Tobey Hospital
BID - Plymouth	Lawrence General Hospital	UMass - HealthAlliance Hospital
Circle Health - Lowell General Hospital	Mercy Medical Center	UMass - Marlborough Hospital
Emerson Hospital	Milford Regional Medical Center	UMass - Wing Hospital
Hallmark Health - Lawrence Memorial Hospital	New England Baptist Hospital	Winchester Hospital

¹ A weighted average of relative prices (by payer mix) was calculated using 2011 and 2012 data from the Center for Health Information and Analysis for all commercial payers, Medicare Advantage, and all MMCOs. This eligibility list is valid for Phase 2 only.

² Eligibility is subject to change at the sole discretion of the HPC

Health Policy Commission | 9

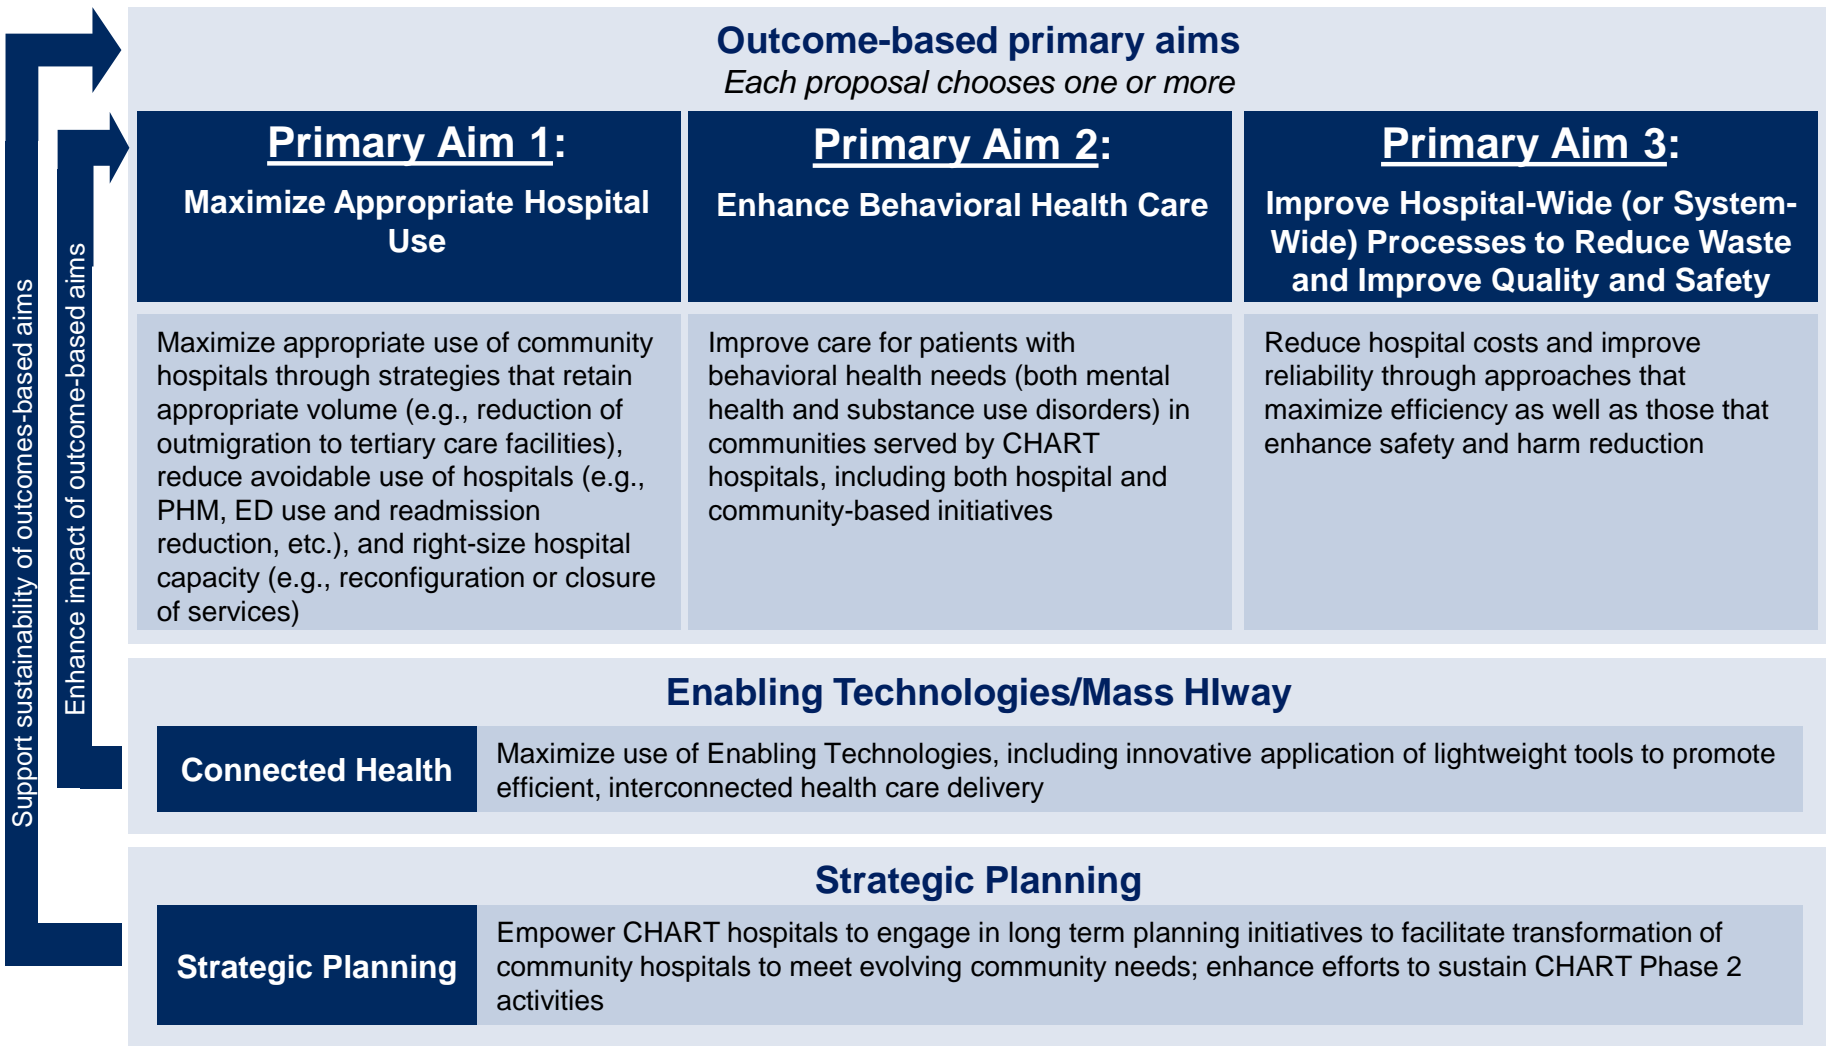

Phase 2 Eligibility – Changes during the Period of Performance

Implications of eligibility factors that may change during period of performance (Examples only)

- **Scenario:** Eligible hospital is acquired by or joins a for-profit system
 - *HPC action:* Varied by facts of a given scenario; consider claw-back authority to require repayment by acquiring organization
- **Scenario:** Eligible hospital is acquired by or joins a non-profit system
 - *HPC action:* Varied by financial status of system, considered opportunities for requisite contribution/matching funds by acquiring system; HPC retains discretion to amend or terminate award
- **Scenario:** Eligible hospital moves out of eligibility cohort due to shift in relative price
 - *HPC action:* Varied by facts of a given scenario; depending on the nature and level of RP shift, the HPC may allow continuation of award but retains discretion to amend or terminate award
- **Scenario:** Eligible hospital becomes a major teaching hospital
 - *HPC action:* Varied by facts of a given scenario; depending on the nature of the change, the HPC may allow continuation of award but holds discretion to amend or terminate award

In Phase 2, hospitals propose mechanisms to meet specified aims, with the overarching goal to drive transformation toward accountable care

CHART Phase 2: Driving transformation to accountable care

Example 1: Hospital combines programs to reduce readmissions and preventable harm

The following proposal example addresses two of the three Primary Aims through a single, integrated initiative, and could be a Hospital-Specific or a Joint Hospital proposal

A

Community Need: Frequent readmissions for patients discharged to SNF indicate a need for improved care transitions, broad quality improvement, and targeted care coordination

Target Population: Patients discharged to the six highest volume SNFs in the community

Intervention: Implement the IMPACT toolkit in community SNFs; implement warm hand-off between the hospital and SNF; establish weekly case conferences between SNFs and the hospital; implement multidisciplinary team rounds and care coordination; improved discharge planning; establish targeted high risk care team; increased home health visits and in-person medication reconciliation

Outcome: 1) 30% reduction in readmissions among patients discharged to SNFs; 2) 100 bed day reduction in readmits from SNFs

B

- Utilize an open-source, bi-directional, vendor-neutral electronic referral program that enables electronic community-clinical linkages between hospitals and community elder services agencies to prevent falls
- Establish IT conferencing platform for real-time communication and coordination between hospital and SNFs, including real time admission, discharge, and transfer feeds

C

- Strategic planning initiative focused on right-sizing hospital capacity by reducing beds over the next 10 years
- Engage in strategic redesign to investigate need/opportunity for diversification into home health agencies, VNAs, and other home-based care by more cost-effective personnel

Common activities
(All hospitals must complete)

Awardees must complete a common set of requisite activities, supporting many domains of transformation, including, e.g.:

- Operational Key Performance Indicator (KPI) Benchmarking
- Mass Hlway connection and use
- Deep engagement in Executive Leadership Academy, management practice and culture-oriented activities, and potential learning collaboratives

Example 2: Hospital implements multi-pronged approach to improve cross-setting behavioral health care in the community

The following proposal example addresses all three Primary Aims through a single, integrated initiative, and could be a Hospital-Specific or a Joint Hospital proposal

A Community Need: Underdiagnosed behavioral health needs in the community and fragmented care due to a lack of cross-setting care transitions and coordination amongst community care organizations

Target Population: Patients diagnosed or newly identified with mental health, substance abuse, or other sentinel issues of social complexity

Intervention: Emergency department (ED)-based interventions, including co-locating behavioral health case managers in emergency department and introducing Patient Safety Assistants to the floor; enhanced Inpatient Nursing strategies; implementing multidisciplinary team rounds and care coordination

Outcome: 1) Reduce mean time from decision to admit to placement in hospital bed by 50% for patients with BH needs; 2) 50% reduction of patient restraint use in ED; 3) reduce unnecessary frequent ED use by highest utilizing patients

- B**
- Cloud-based integrated care plans durable across all community care partners
 - Real-time communication channels across community care partners for coordination of care and transition information
 - Telepsychiatry pilot in collaboration with other CHART Phase 2 hospitals

- C**
- Strategic planning initiative focused on right-sizing hospital capacity by reducing beds over the next 10 years
 - Assess the business value of regionalizing BH services with other CHART Phase 2 hospitals to create a group purchasing collective agreement

Common activities (All hospitals must complete)

Awardees must complete a common set of requisite activities, supporting many domains of transformation, including, e.g.:

- Operational Key Performance Indicator (KPI) Benchmarking
- Mass Hlway connection and use
- Deep engagement in Executive Leadership Academy, management practice and culture-oriented activities, and potential learning collaboratives

CHART Phase 2

CHART Phase 2 Information and Eligibility

The HPC issued a Request for Proposals (RFP) in June 2014 to solicit responses from eligible community hospitals. CHART's Phase 2 is intended to accelerate the transformation of CHART hospitals through a focus on three outcome-oriented aims:

- Maximize appropriate hospital use
- Enhance behavioral health care
- Improve hospital-wide (or systemwide) processes to reduce waste and improve quality and safety

Project Toolkit

DRAFT

MRT DSRIP – Pathway to Achieving the Triple Aim | 1

DSRIP Project Toolkit – subject to revision

System Transformation Projects (Domain 2)
A. Create Integrated Delivery Systems that are focused on Evidence Based Medicine/Population Health Management
Project ID: Z.A.1
Project Title: Create Integrated Delivery Systems that are focused on Evidence Based Medicine and Population Health Management
Objective: An integrated, collaborative and accountable service delivery structure to end service fragmentation and increase the alignment of incentives. This project will develop an integrated approach to care delivery incorporating medical, behavioral health, long term care and social service innovations as well as efforts to transform current service delivery from institutionally-based to community-based care. Each integrated delivery system will be expected to deliver accessible, patient-based high quality care in the right setting at the lowest cost. These systems will need to link to population health management and prepare themselves for active participation in system reform.
Relation and Relation to Other Projects: Reduction in avoidable hospital use will require a new integrated delivery system that is community wide and incorporates all aspects of a patient's health needs including medical, behavioral, long term care, and social. This will require an organizational structure that removes silos to integrate care, and rewards providers based on improving the health of the population. In this system, hospitalizations will be reduced to trauma emergencies, acute surgical emergencies and tertiary care emergencies.
Integrated delivery systems may use one of several structures including single governance or joint governance (binding contracts or memoranda of understanding). Regardless of which structure is chosen, the system will need to clearly demonstrate that it will function as a "team" and not as a loose configuration of organizations. It is also anticipated that, over time, the organizational structure will evolve and the relationships between providers will deepen. An integrated delivery system will need access to high quality primary care, participate in payment reform, restructure/restructure its delivery (including hospital and nursing home bed reduction), enhance community based care (especially behavioral health services), and will be driven by a comprehensive community wide assessment and an internal emphasis on quality improvement. Increased structural sustainability for quality and a more aligned set of service incentives should be key focus areas in this project.
Project Index Score
Components
performing provider system will complete the following general steps:
Ensure care coordination of all patient care including medical, behavioral, long term care, social and public health services. This should be done in concert with relevant Health Homes and Medicaid Managed Care Plans. It is expected that each integrated delivery system will have/develop an ability to share relevant patient information in real-time so as to ensure that patient needs are met and care is provided efficiently and effectively.

MRT DSRIP – Pathway to Achieving the Triple Aim | 7

Attachment A, Exhibits 1 & 4

- Additional background and project examples can be found on the HPC's CHART Phase 2 RFP webpage

The RFP includes examples of potentially out of scope Phase 2 initiatives

Some initiatives that were funded in CHART Phase 1 may be out of scope for Phase 2

In scope for Phase 1:

Significant stand-alone IT initiatives

Training without implementation of work using trained competencies

Payer specific initiatives (e.g. Medicare only, Medicaid only)

Bricks and mortar/capital projects

Likely out-of-scope for Phase 2

- **Example:** A large system-wide EHR implementation. While important to the CHART Hospital, this is insufficiently transformative to be funded through Phase 2 CHART.
- **Example:** An initiative to upgrade to ICD-10.
- **Example:** Lean training without implementation of learned skills within the period of performance
- **Example:** A readmissions initiative aiming to prevent readmissions for CHF, pneumonia, and AMI for only Medicare patients, is out of scope. With limited exceptions (e.g., driven by a hospital's payer mix or a special population) the HPC is interested in all-payer approaches to transformation.
- **Example:** Operating Room upgrades may be valuable for a community, but are not in scope for CHART Phase 2 funding.

Likely in-scope for Phase 2

- **Example:** Implementation of a smaller EHR module to support care transitions.
- **Example:** Lean training for a cohort of staff who would use acquired skills to implement process improvement initiatives as a core element of Phase 2
- **Example:** Project focusing mainly on one payer due to hospital's payer mix
- **Example:** Initiatives within the context of a large repurposing of hospital services or capacity for a community-oriented purpose

Community Partnerships will be a strong emphasis of all Phase 2 initiatives

Substantial selection preference will be given to applicants that partner with community-based organizations (CBOs) to provide appropriate services across the continuum of care. Community partnerships may be formal or informal, financial or in-kind, new or a strengthening of an existing partnership

Partner Characteristics

Potential Community Partnerships will depend on the nature of the project, but may include: SNFs, home health agencies, ASAPs, office practices, community mental health centers, faith-based organizations, etc.

Key Characteristics

- Partners should be those entities with the most overlap with the hospital in caring for the target patient population (e.g., most common senders/receivers of patients)
- Partners should represent an opportunity for close collaboration between a CHART hospital and community providers caring for the patients it serves
- Partnerships should be established early to allow shared development of applications/intervention approaches

Partnership Examples

There are many examples in care delivery transformation models in which hospital-community collaboration is a critical factor (e.g., 3026 Community-based care transitions programs, STAAR, etc.)

Examples

- Referring post-treatment chemo patients to community-based chronic disease services
- Using community-based patient navigators to identify and support high-risk patients (hotspotting)
- Making pharmacists available at the worksite to provide employees with medication therapy management,
- Linking elder services with clinical care providers to enhance care transitions

Joint Hospital Proposals are strongly encouraged

CHART Hospital

Each CHART Hospital may participate in up to 2 proposals (up to one of each type below)

Joint Hospital Proposals

- Proposals with other CHART Hospitals (whether otherwise affiliated or non-affiliated)
- The Joint Hospital Proposal is intended to facilitate collaboration across both affiliated and non-affiliated CHART hospitals. Joint applications may be an opportunity to maximize impact of community oriented initiatives or achieve efficiency through coordinated acquisition of tools/trainings, etc.
- **Examples**
 - A regional collaborative approach to identification and management of high-risk, high-cost patients
 - A coordinated approach to Lean Management through a shared training and support model that optimizes impact through shared analytics capacity
 - A regional or statewide bulk-purchasing collaborative that optimize impact through scale
 - A statewide approach to telemedicine in low-access settings that optimizes impact

Hospital-Specific Proposals

- One hospital
- The Hospital-Specific Proposal allows an applicant to focus on unique needs of an individual institution, whether or not that hospital is also participating in a collaborative model.

The per-hospital cap on grants of \$6M will be cumulative across both proposals

CHART Phase 2 requests and awards are capped at \$6M per Hospital

- Applicants may apply for one Hospital-Specific Proposal, and one Joint Hospital Proposal, for a maximum of two CHART Phase 2 grants
- Joint Hospital Proposals may request CHART funding greater than \$6M (distributed across hospitals), but no single Hospital may receive more than \$6M in CHART award funding across all proposals

Example:
acceptable
proposal
budget

	Total Joint Hospital Initiative Request	Each Hospital's Portion of the Joint Hospital Request	Hospital-Specific Initiative Request	Total CHART Phase 2 Request
Hospital A	\$9M	\$2M	\$1M	\$3M
Hospital B		\$3M	\$3M	\$6M
Hospital C		\$4M	(Did Not Apply)	\$4M

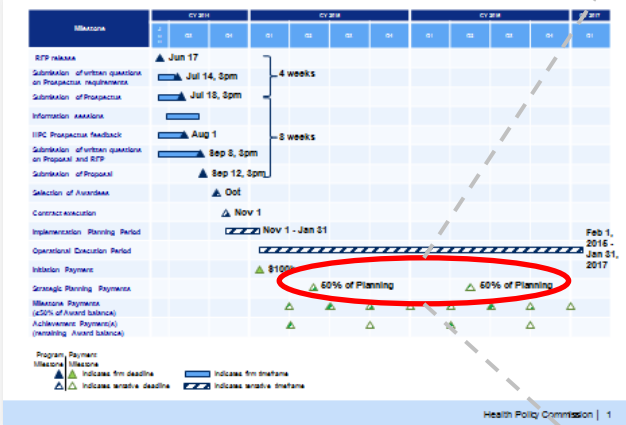

Example:
unacceptable
proposal
budget

	Total Joint Hospital Initiative Request	Each Hospital's Portion of the Joint Hospital Request	Hospital-Specific Initiative Request	Total CHART Phase 2 Request
Hospital A	\$9M	\$7M	\$1M	\$8M
Hospital B		\$2M	\$5M	\$7M
Hospital C	(Did Not Apply)	(Did Not Apply)	\$7M	\$7M

Strategic Planning

CHART Phase 2 timeline

“Applicants must propose efforts to engage in Strategic Planning to advance their ability to provide efficient, effective care and to meet community needs in an evolving health care environment...

Competitive Proposals will include Strategic Planning for bold and visionary objectives, including for example plans to shift (increase, decrease, or change) hospital service availability to meet community needs, developing community-based approaches to care, or developing models and partnerships to support accountability/bearing risk.”

– Source: HPC-CHART-002, Section II.B, pp. 18-19

- Strategic Planning carried out during CHART Phase 2 may serve as the basis for future phases of the CHART Investment Program. The HPC’s anticipated Community Hospital Study may also support Strategic Planning efforts (Attachment A, Exhibit 1).
- Awards for Strategic Planning initiatives will be disbursed in two equal parts: the first upon initiation, and the latter upon completion

Core Activities – Learning, Improvement, and Diffusion

“Participate in a continuation of the executive leadership program (e.g., attendance at a series of events organized by HPC focused on achieving rapid, effective performance improvements). HPC may specify required participation by representatives of the Board of Directors, Executive Officers, Clinical Leadership, and Operational Leadership.”

– HPC-CHART-002, Section I.E.4, p. 16

The CHART Executive Leadership Program aims to provide:

- Access to expert support and tools to enhance use of data from the management and leadership assessment as well as the culture survey to help drive improvement;
- Skill development related to change-management to support transformation in an era of rapidly evolving health reform
- A forum for ongoing engagement as the HPC develops future CHART Phases.

“Participate in periodic activities and meetings with HPC Staff, other Awardees, or content experts to provide updates, share lessons learned, develop skills, and receive feedback.”

– HPC-CHART-002, Section I.E.4, p. 16

Engagement and collaboration activities are intended to:

- Facilitate communication between Awardees and the HPC
- Provide opportunities for resources in areas of mutual challenge for Awardees
- Enable best practice sharing within Awardee cohort

Core Activities – Learning, Improvement, and Diffusion

“Participate in a key performance indicator benchmarking program facilitated by the HPC.”

– HPC-CHART-002, Section I.E.4, p. 16

- Phase 1 identified an opportunity for engaging in benchmarking of key performance indicators across CHART hospitals and reporting on such data to Awardees.
- Intended to facilitate adoption of best practices regarding use of data to drive improvement.
- The HPC anticipates that key performance data may include metrics describing: labor, supply/equipment infrastructure, financing, volume/utilization, as well as quality and safety. *A final list of metrics may be identified by the HPC in conjunction with Awardees during the Implementation Planning Period.*
- KPI benchmarking will, where possible, draw upon public data from sources such as CHIA, CMS, etc.

“Work with the HPC to complete a survey on patient safety or improvement culture with sufficient response rates as specified by the HPC at or near the end of the Period of Performance.”

– HPC-CHART-002, Section I.E.4, p. 16

- With culture being a critical driver of patient safety, patient experience, and overall hospital performance, a culture of safety survey is a critical part of any transformation initiative
- Use of such a tool is intended to provide trending data for individual hospitals, as well as a strong signal from senior management that safety is the highest priority and culture is key

“Complete an HPC-provided leadership and management capability and capacity assessment tool with sufficient response rates as specified by the HPC at or near the end of the Period of Performance.”

– HPC-CHART-002, Section I.E.4, p. 16

- Evidence suggests a significant association between managerial processes and clinical / financial performance
- Use of such a tool is intended to assess adoption of managerial best practices in order to develop hospital-level feedback for areas of improvement and opportunities for improvement activities in areas of cohort-wide need
- The HPC anticipates that such an assessment would require some level of participation of executive leadership, clinical leadership, operational leadership, and the Board of Directors, and would require 45 minutes or less of each participant’s time

Core Activities – Mass Hlway Participation

“Each Awardee will be responsible for joining and transacting patient information on the Mass Hlway. Milestones for this core activity will vary by hospital according to their baseline connectivity.”

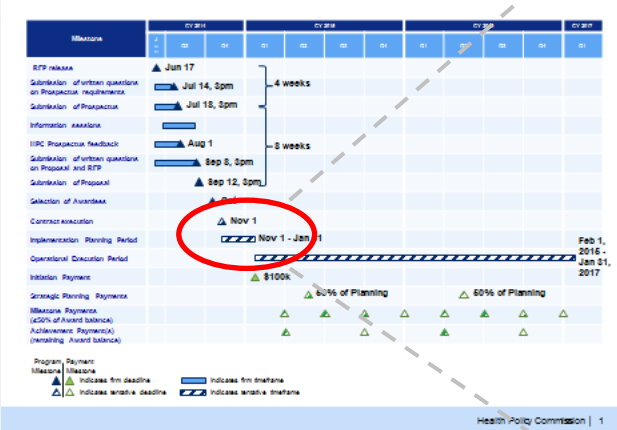

– HPC-CHART-002, Section I.E.2, p. 13

- **Mass Hlway Participation:** Awardees must begin or maintain participation in the Mass Hlway. If the Applicant is not a Mass Hlway participant at the time of Proposal submission, the Hospital must submit a plan with its Proposal that details how it will enroll as a Mass Hlway Participant by March 31, 2015.
- **Direct Messaging Use Case:** Each Applicant must propose at least one Mass Hlway use case using Direct Messaging functionality.
- **Contribution of Encounter Data to the Relationship Listing Service:** Each Applicant must state their commitment to actively contribute encounter data to the Mass Hlway Relationship Listing Service in a timeframe to be specified in the Implementation Plan.

Implementation Planning Period

CHART Phase 2 timeline

“Upon Contract execution, a 90-day **Implementation Planning Period** will begin, during which each Awardee will develop a detailed Implementation Plan to guide CHART Phase 2 implementation. During the Implementation Planning Period, the HPC may in its discretion provide technical assistance to Awardees on topics such as project planning, metric development and selection, goal setting, staffing, analytics, and approaches to transformation. At the end of the Implementation Planning Period, each Awardee will submit to the HPC for review and approval a proposed Implementation Plan...

Approval of the Implementation Plan by the HPC will constitute sufficient progress for the first milestone payment, described above. See **Attachment D** for additional details.”

– **Source: HPC-CHART-002, Section II.B, pp. 18-19**

The culmination of the Implementation Planning Period will be finalized versions of:

- Detailed work plan
- Staffing plan
- Budget
- Metric selection and reporting plan
- Milestone and achievement payment targets and installment schedule

CHART Phase 2 award disbursement model

Funding model	<ul style="list-style-type: none">▪ Initiation payment; ongoing base payments for milestones; segment of payments for achievement (e.g., process and outcomes)
Award caps	<ul style="list-style-type: none">▪ Hospitals may apply for up to \$6M▪ Hospital-specific awards tied to factors such as community need, hospital financial status, financial impact, and patient impact▪ Hospitals may apply for up to \$100,000 over two years to support meeting Hlway implementation requirements▪ Hospitals may apply for up to \$250,000 to support Strategic Planning requirements.<ul style="list-style-type: none">— Scope expectations will be commensurate with award size
Initiation Payment	<ul style="list-style-type: none">▪ Hospitals will receive a flat \$100,000 initiation payment at the time of contract execution for the 90 Implementation Planning Period
Strategy Payment	<ul style="list-style-type: none">▪ Hospitals will receive strategic planning payments in two lump sums, 50% upon initiation of planning and 50% upon completion
Gate Payments	<ul style="list-style-type: none">▪ At least 50% of the balance of each hospital's award will be segmented equally for quarterly milestone based 'gate' payments
Achievement Payments	<ul style="list-style-type: none">▪ Up to 50% of the balance of each hospital's award will be segmented equally for biennial achievement payments (processes and outcomes); level of risk will vary with size and impact of award

Alignment with investments across agencies and programs

CHART Phase 2

CHART Phase 2 Information and Eligibility

The HPC issued a Request for Proposals (RFP) in June 2014 to solicit responses from eligible community hospitals. CHART's Phase 2 is intended to accelerate the transformation of CHART Hospitals through a focus on three outcome-oriented aims:

- Maximize appropriate hospital use
- Enhance behavioral health care
- Improve hospital-wide (or system-wide) processes to reduce waste and improve quality and safety

Framework for Phase 2 application process

The application process will occur in two steps, a short prospectus followed by a full proposal

Prospectus

The prospectus is intended to be a brief (7 pages maximum), directional and non-binding proposal giving the HPC insight into the applicant's proposed intervention, and allowing early feedback.

Key Elements (See Template B Exhibit 1)

- Selected Primary Aim(s): *appropriate hospital use, behavioral health, process improvement*
- A description of nature and size of target population(s)
- A description of nature and scope of proposed intervention(s)
- A description of proposed partners
- An estimate of investment request and an estimate of net impact

Full Proposal

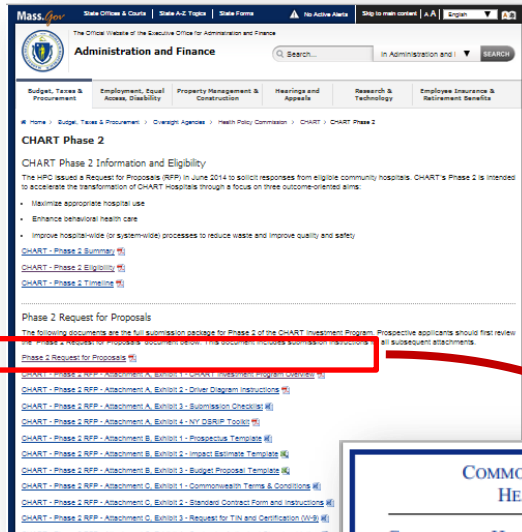

The full proposal will include expanded details described in the prospectus, as well as select additional information.

Key Elements

- Qualitative and/or quantitative description of community or organizational need for intervention
- Description of target population, including numbers of patients, utilization patterns
- Description of intervention(s) for each aim and target population, estimated impact of strategy and a driver diagram describing the relation of interventions to aim (s)
- Impact/investment template with narrative detail

HPC review and standardized unilateral feedback

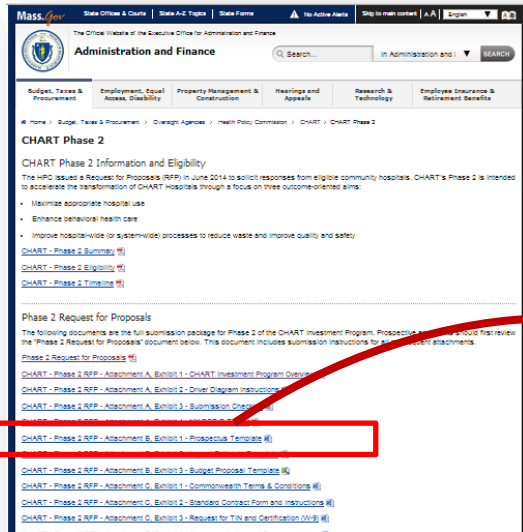

CHART Phase 2 RFP Materials – Request For Proposal

Phase 2 Request for Proposals

- **Section I:** Funding Opportunity Description
- **Section II:** Award Information
- **Section III:** Eligibility Information
- **Section IV:** Prospectus and Proposal Response Requirements

- **Section VI:** Timeline
- **Section VII:** Additional Terms and Details

Submission instructions - Prospectus

Please respond in the gray table under each question or check the relevant checkbox(es). The Prospectus submission should be less than seven (7) pages total, single-spaced, in Times New Roman 11 point font.

- CHART Hospital Name(s)** – List the name(s) of the submitting CHART Hospital(s). For a Joint Hospital Proposal, list all CHART Hospitals participating in the Proposal. Do not list names of non-CHART Hospitals that might participate in a proposed Initiative(s) here.
- Investment Director(s)** – *A clinical and an operational Investment Director must be identified.* For each Investment Director, provide name, organization, title, brief description of role and qualifications, and complete contact information, including administrative assistant contact, if applicable.
- Executive Summary** – Briefly summarize the proposed Initiative(s).
- Primary Aim(s)** – Select one or more that the Initiative(s) will address:
 - ☐ Maximize Appropriate Hospital Utilization
 - ☐ Enhance Behavioral Health Care
 - ☐ Improve Hospital-wide or System-wide Processes to Reduce Waste and Improve Quality and Safety
- Aim Statement** – Describe in a single sentence the overarching Aim Statement of the Initiative(s), including “what (the measurable Aim), by when, how much, and for whom (which population).”
- Community, Safety or Hospital Efficiency need(s) this project will address** – Briefly summarize identified needs to be addressed by proposed Initiative(s).

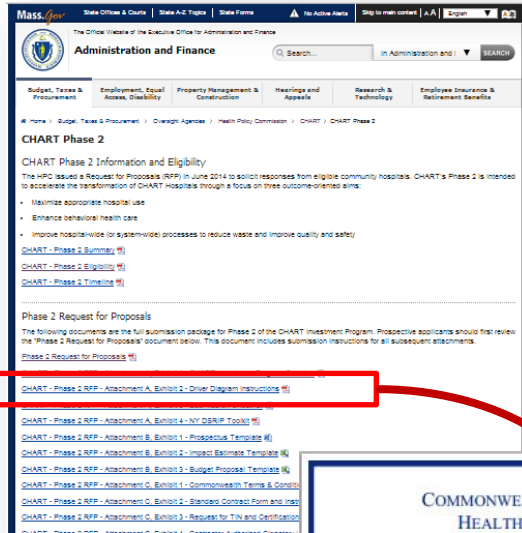

“For the **Prospectus**, Applicants must submit **one (1)** electronic copy of all materials by electronic mail to:

Margaret D. Senese
Program Manager for Strategic Investment
Health Policy Commission
HPC-CHART@state.ma.us

Prospectus responses must be received by the HPC in full at the above email address **no later than 3:00 PM on July 18, 2014, (Section IV.A).**”

CHART Phase 2 RFP Materials – Driver Diagram Guide

Attachment A, Exhibit 2: Driver Diagram Guide

- Attachment A, Exhibit 2 is a short guide to creating a Driver Diagram, for your reference only; no template is provided
- A Driver Diagram is a simple cause-and-effect diagram that represents hypotheses about what actions and activities will lead to a initiative goal
- There are many references available for Driver Diagrams, and the Applicants may use other resources as is helpful
- The July 24 webinar will provide additional information on creating an effective Driver Diagram.

CHART Phase 2 RFP Materials – Budget Template

- ### Attachment B, Exhibit 3: Budget Response
- Applicants must complete the Budget Template provided in Attachment B, Exhibit 3, indicating the funding requested for the Proposal using February 1, 2015 as a start date and January 31, 2017 as an end date for the Initiative(s).
 - A Budget Template must be completed for each Community Partner, CHART Hospital, or non-CHART eligible hospital for which funding is requested in a Proposal.
 - Applicants must provide a budget narrative including a detailed cost breakdown for each line item outlined in Attachment B, Exhibit 3.
 - Health systems with one or more Teaching Hospitals are required to provide contributions to support initiative implementation in their community hospitals

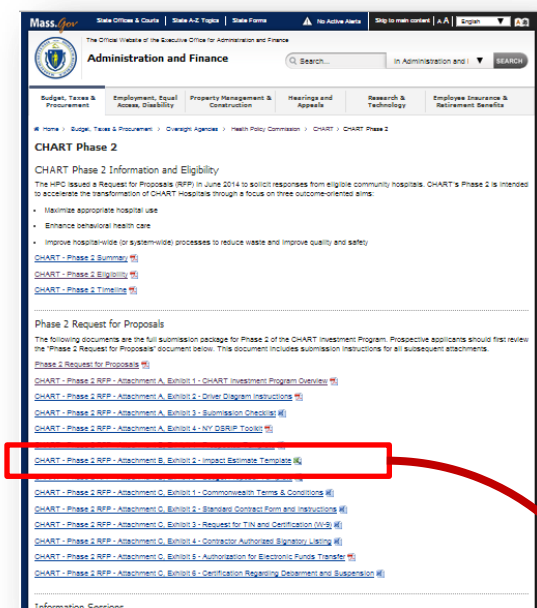

-HPC-CHART-002, Section IV.B.3, p

CHART Phase 2 RFP Materials – Impact Estimate Template

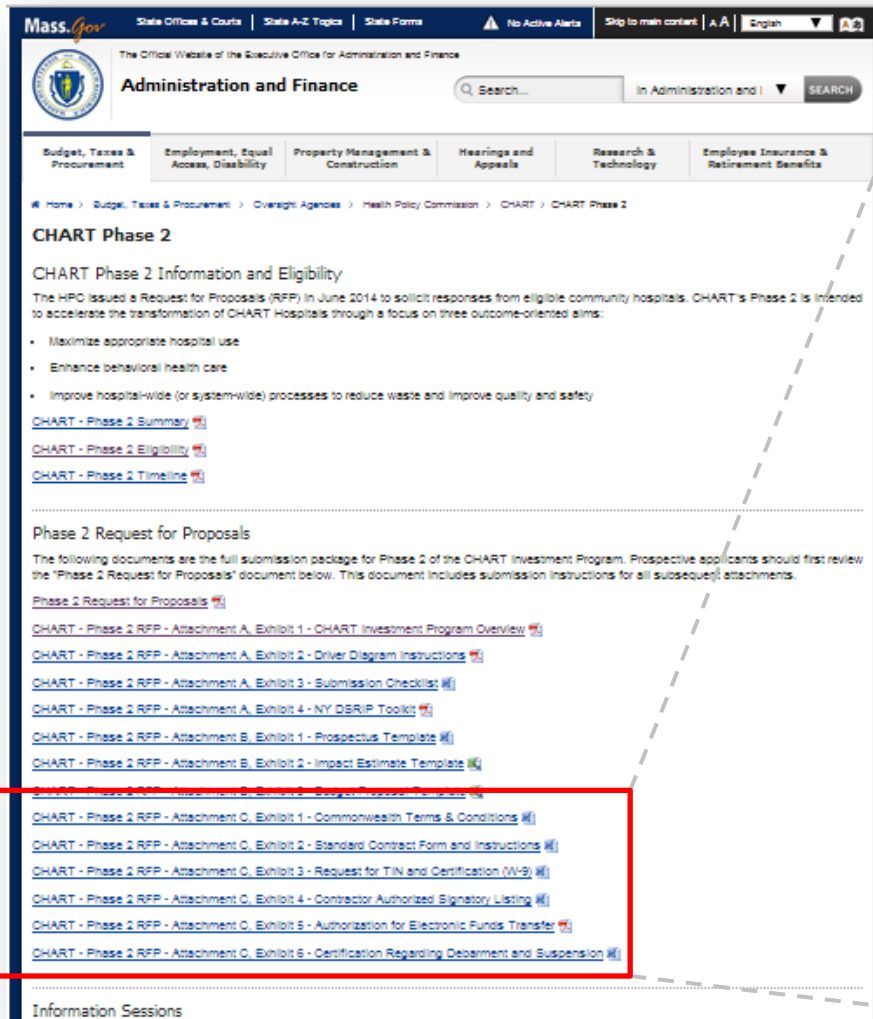

Attachment B, Exhibit 2: Impact Estimate Template

- Applicants must describe and estimate how the Initiative(s) will result in a net reduction in health care or social costs
- Applicants must develop Proposals so that expected outcomes and cost savings (or efficiency gains) can be quantified
- More guidance on using the Impact Estimate Template will be provided at the August 5 webinar (see slide 40 for more information on info sessions)**

- **Exhibit 3:** Request for Taxation Identification Number and Certification (W-9)
- **Exhibit 4:** Contractor Authorized Signatory Listing
- **Exhibit 5:** Authorization for Electronic Funds Transfer
- **Exhibit 6:** Certification Regarding Debarment and Suspension

CHART Phase 2 RFP Materials – Submission Checklist is a helpful tool for preparing and submitting Proposals and is not submitted to the HPC

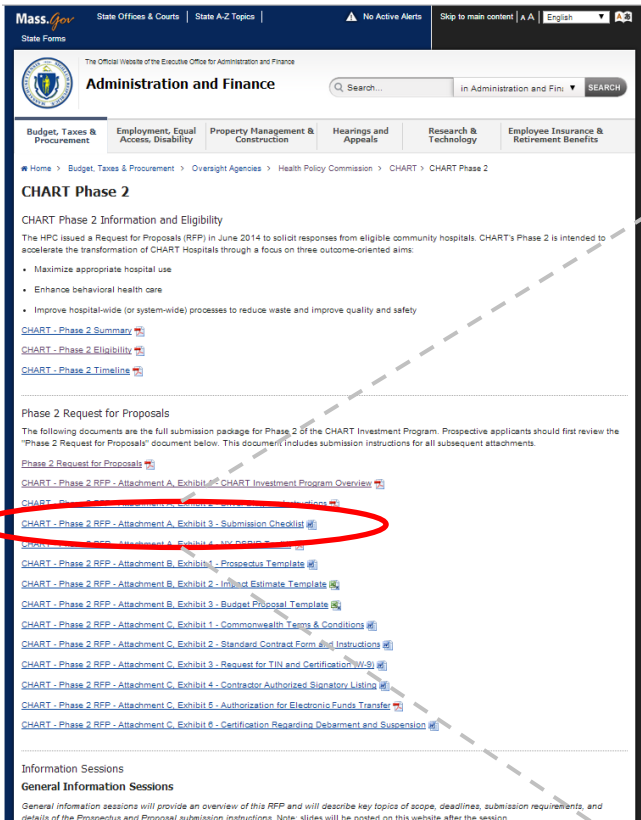

CHART Phase 2 RFP – Attachment A, Exhibit 3

Full Application Checklist – Joint Hospital Proposal

Due July 18, 2014, 3:00PM

CHART Phase 2 RFP – Attachment A, Exhibit 3

For Applicant Use Only – Do Not Submit to HPC

CHART Phase 2 Submission Checklists

Proposals will be considered incomplete and will not be accepted if one or more of the following items (excluding optional or Pathway-specific requirements) are omitted in the submission.

Full Application Checklist – Hospital-Specific Proposal

Due July 18, 2014, 3:00PM

☐ Prospectus, submitted electronically to HPC-CHART@state.ma.us

Due September 12, 2014, 3:00PM (electronic); September 18, 2014, 3:00PM (hard copy):

☐ Proposal (one [1] paper & one [1] electronic copy), including:

- ☐ Authorizing Cover Letter (signed by President, CEO, or Board Chair)
- ☐ Operational Response, including:
 - Abstract
 - Aim Statement
 - Community Partnership(s)
 - Community, Safety or Hospital Efficiency Need(s)
 - Driver Diagram
 - Expected Impact of Initiative
 - Enabling Technologies, including:
 - Mass Hiway participation
 - Hospital Partnership(s)
 - Initiative(s)
 - Organizational, Clinical, and Operational Leadership
 - Regulatory Barriers (as applicable)
 - Staffing Model (narrative), including Investment Director resumes
 - Strategic Planning
 - Target Population
- ☐ Financial Response, including:
 - Completed Budget Proposal Template
 - Budget Narrative
- ☐ Impact Estimate, with accompanying narrative describing data sources and modifications to the template
- ☐ Metric Identification
- ☐ Mandatory Forms and Certifications, including:
 - Commonwealth Terms & Conditions
 - Commonwealth of Massachusetts Standard Contract Form
 - Request for Taxpayer Identification Number and Certification (W-9)
 - Contractor Authorized Signatory Listing (must be notarized)
 - Authorization for Electronic Funds Transfer Form
 - Certification Regarding Debarment and Suspension

☐ System contribution is included for Applicants owned by a system with a Major Teaching Hospital

☐ Authorizing Cover Letter and all Mandatory Forms and Certifications are originals wet-signed in ink (hard copy submission only)

☐ Authorizing Cover Letter and all Mandatory Forms and Certifications are signed by authorized signatories listed on the Contractor Authorized Signatory Listing form

☐ Applicant funding requests are no greater than \$6M, total, per Hospital, across all Proposals

☐ All hardcopy materials adhere to environmental guidelines to the extent possible

1 | CHART Investment Program Phase2: Driving System Transformation

Submission instructions – Proposal

For each Hospital-Specific Proposal, the Applicant must submit **one (1)** original paper copy of the Proposal, including an authorizing cover letter, Operational Response (including Driver Diagram(s) as described in **Attachment A, Exhibit 2**), Financial Response, and all signed Mandatory Forms and Certification documents.

For each Joint Hospital Proposal, the Applicant CHART Hospitals must jointly submit **one (1)** original paper copy of the joint Proposal, including a joint Operational Response (including Driver Diagram(s) as described in **Attachment A, Exhibit 2**) and a joint Financial Response. The Applicant CHART Hospitals may submit either a joint authorizing cover letter signed by each Applicant CHART Hospital, *or* separate authorizing cover letters submitted by each Applicant CHART Hospital.

Complete electronic Proposals must be submitted following the HPC’s online submission instructions to be posted at www.mass.gov/hpc/chart and received by the HPC **no later than 3:00 PM on September 12, 2014, (Section IV.B)**. Complete hardcopy responses (see **Attachment A, Exhibit 3**) must be submitted and received **no later than 3:00 PM on September 18, 2014** addressed to:

Margaret D. Senese
Program Manager for Strategic Investment
Health Policy Commission
2 Boylston Street, 6th floor
Boston, MA 02116
(617) 979-1400

CHART Phase 2 FAQs will be posted on a rolling basis

The screenshot shows the Mass.Gov website for the CHART Phase 2 program. The top navigation bar includes links for 'State Offices & Courts', 'State A-Z Topics', and 'State Forms'. The main header identifies the site as 'The Official Website of the Executive Office for Administration and Finance'. A search bar is located in the top right. The left sidebar contains a 'CHART' section with a 'Phase 2' link circled in red. A red arrow points from this link to the 'Frequently Asked Questions' section on the right. The 'Frequently Asked Questions' section lists several upcoming webinars with dates, times, and topics, each with a 'Register' link. Below the list is a 'Frequently Asked Questions' heading and a 'Check back soon for a list of FAQs.' message. At the bottom, there is a feedback form asking 'Did you find the information you were looking for on this page?' with 'Yes' and 'No' radio buttons and a 'Send Feedback' button. The footer includes copyright information for 2014 Commonwealth of Massachusetts and links for 'Site Policies' and 'Contact Us'.
